Operations

Admin tools that stay out of the way

Give your office and teachers a shared system for rosters, attendance, and day-to-day decisions — without spreadsheet chaos.

- School-scoped data for every tenant
- Enrollment and family profiles
- Role-based pages for staff

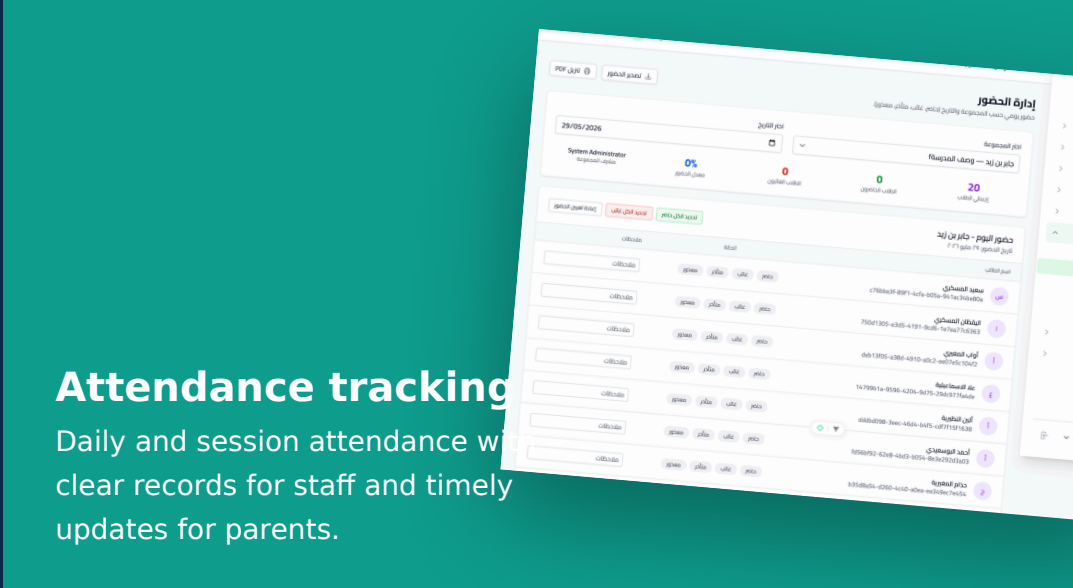

3 roles • permissions per page

Features

Everything your school needs

Six everyday modules for transport, attendance, teaching, activities, communication, and fees — bilingual and ready for families.

Attendance tracking

Daily and session attendance with clear records for staff and timely updates for parents.

Fees management

Packages, installment plans, charge sheets, receipts, and transfers in a clear fee ledger.

Transportation

Bus routes, student assignment, and daily boarding logs for going and return trips.

Courses, plans & grading

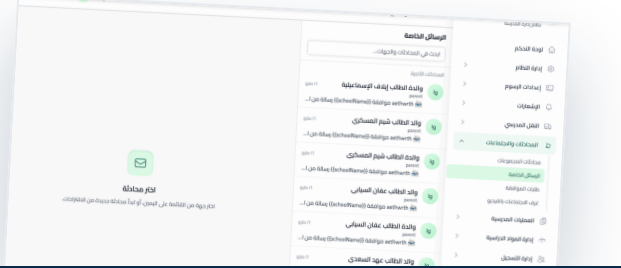

Plan weekly sessions, manage graded courses, and record marks in one teaching workspace.

Activities management

Organize school activities, parent approvals, and related messages without leaving the platform.

Chats, video & messages

Group and direct chat, video meeting rooms, and customizable notification templates.

Families

One profile for every student journey

Teachers, admins, and parents share the same student record — notes, attendance, and progress in one place.

Choose what suits you

“

Built for trust with families

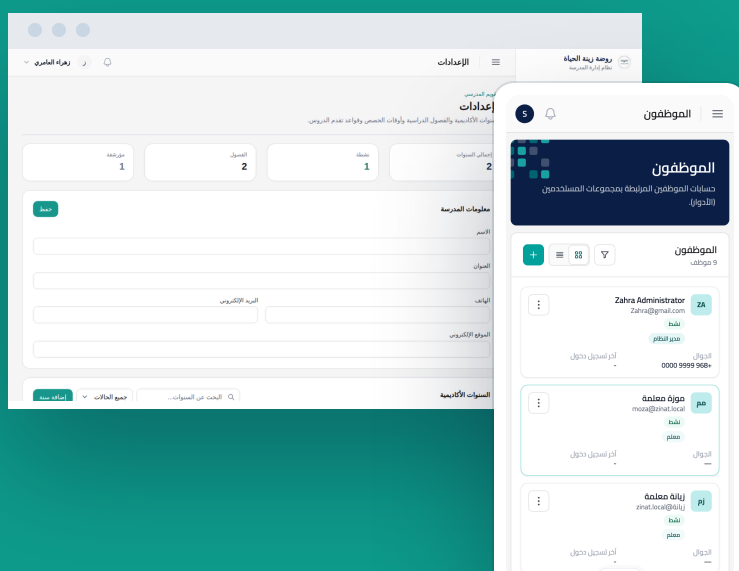

FIKR keeps each school's data isolated, bilingual, and ready for the people who actually run the day.

School-scoped security

Staff only see what their role allows — within their school.

Made for the region

RTL Arabic and English throughout admin and parent experiences.

Ready when your school is
